

Term 4 Curriculum Overview

Year 4 2026

Pride
Respect
Learning

English

Narrative Texts

Reading and Viewing

- read, view and comprehend texts, analysing how characters, settings and events are portrayed and how this influences meaning
- identify and analyse text structures and language features of narrative and informative texts, and their visual features

Writing and Creating

- create written and/or multimodal texts including narratives, informative texts and recounts, using a wider range of details
- organise ideas using text structures appropriate to purpose and audience
- write compound and complex sentences with accurate punctuation and varied vocabulary
- use topic-specific and descriptive vocabulary to enhance meaning

Mathematics

Number and Algebra

- order and represent numbers to at least 10 000 and apply place value to partition, rename and compare numbers
- recall and demonstrate addition and subtraction strategies for numbers to 10 000
- recall and demonstrate multiplication facts for 2, 3, 4, 5 and 10 and related division facts
- solve problems using the four operations and explain reasoning
- investigate and describe number patterns involving multiples and factors

HASS

Geography

- examine the interconnections between people, places and environments, and how these interconnections change over time
- investigate the location, distribution and characteristics of places and their environmental, economic and social features
- collect, sort and record information and data from observations and provided sources
- draw conclusions and make proposals about sustainable practices
- use sources and subject-specific terms to present narratives and explanations about places, people and environments

Science

Physical Sciences

- explore how light travels in straight lines, how shadows are formed, and how light is reflected and refracted
- investigate how people use light in everyday life, including to solve problems with vision
- plan and conduct investigations, making fair tests
- record and represent data, and compare results with predictions
- suggest explanations for findings and consider the implications of light-related technologies
